**Re: Announcement for Quiz 1, ELEC 421**

Dear Students,

As announced before, this is a gentle reminder that Quiz 1 is scheduled for **Tuesday, October 8, 2024**. Quizzes will be closed notes/books and are multiple-choice questions (with no negative marks for incorrect answers). If there is a need for any formulas or equations, they will be provided to you.

Only Lectures 4, 5, and 6 will be covered in Quiz 1. The course materials that are covered in this quiz are only the ones you see in the class lecture notes or discussed by me during the class sessions. You will not be given any questions that are related to the assignments. You may bring any type of calculator to the quiz. Also, you can either use your smartphone or your laptop to take the quiz. My suggestion would be to use your laptop, though. Please remember that all quizzes will be done during our regular class sessions and usually close to the end of the class session.

Here are more details about the quiz:

1. The quiz will start at **10:30 a.m.** and will end at **10:45 a.m.**
2. You will have a total of 5 questions in this quiz.
3. To take the quiz, you will need to log into the course portal on Canvas and use the online quiz answer sheet that I have set up on this platform. Please note that there are no questions on the Canvas answer sheet, just the letter choices of A, B, C, and D.
4. The questions and the details of each choice (i.e., the PDF file of the quiz paper) will be uploaded by me on Canvas a couple of minutes before 10:30 a.m.
5. To get access to the quiz platform on Canvas, you will need an access code. This code will be given to you shortly before 10:30 a.m.

I wish you all the best of luck with your upcoming quiz.

Best wishes,

Siamak Najarian, Ph.D., P.Eng.

Professor of Biomedical Engineering (retired)
